## PRICE LIST

for

Florists and Growers

Only the choicest and dependable varieties of seed are shown in this list. They have been tested under actual growing conditions, and you will find them dependable. We offer only fresh, new crop seed, produced by recognized seed specialists. Wherever the best seed of a particular variety or strain is grown, that is where we buy it. Our seed are no better than that offered by several first-class seedsmen, but it is identical, and is produced, generally, by the same seed growers. We can save you time in filling your order, and you really can make a substantial saving by buying from us. Give us a trial. Keep this list handy. Order from this list at any time.
